Podium AirMedia for PC

- Use Crestron Control Panel

- Power ON System
- Select source AirMedia
- Click AirMedia source and click the Destination Projector (AirMedia will show up as Wireless)
- Make sure Wireless source is also displayed under Audio in Destinations
- On local PC go to IP address on the projector display on your web browser
- Select Download from Client for Windows

Download AirMedia Utility Software

Client for Windows ⊞ Download

(Requires Windows 8 / 7 / Vista / XP)

Client for Mac   Download

(Requires OS X 10.5 ~ 10.8)

Remote View

Do you want to run or save **WL-CEER-001_.153.104.46.71.exe** (2.35 MB) from **153.104.46.71**?   Run   Save ▼   Cancel   ✕

- Select Run. If you choose to Save run the executable from the downloaded folder.
- Enter Code that is on the Projector Screen
