

Installing Respondus

Log into <http://elearning.villanova.edu>

Click the Courses tab in the upper right hand corner of the screen.

Once on the Courses tab, there is a Respondus module which contains the download and the license information for the product.

Click the link for the download.

Once the download is complete, go to its location and double click the file to begin the installation.

Please use all of the default settings for the installation.

Once installed and opened, for the profile please select **Blackboard Learn**.
